SUCCESS STORY

Ansari Saif

Saif always knew he wanted to be an engineering, but it seemed an unlikely goal. His father is a tailor and his mother is a housewife. His father was able to make just enough to feed the family. Fortunately, Saif found out about MESCO when he was in Std. VIII in 2013 on the basis of merit and means. He was inducted under Education

Adoption Scheme as he was a meritorious child. Later on, he was transferred to the High Cost Education Scheme due to the high amount of fees for pursuing an Engineering course. With his passion and perseverance, he completed B. Tech. in Mechanical Engineering from VJTI, Matunga. He was connected to MESCO for almost 9 years for his academic necessities. Today, he is working as an Analyst at Deloitte. He is very instrumental in supporting deserving students by completing his repayment. He is willing to stay connected with MESCO in the future as well as he believes that not a single deserving student must be left behind. Saif is overwhelmed with the organization and says,

“MESCO has not only supported me financially but also helped for my overall development as an individual by periodically conducting counseling sessions by experienced Education Counsellors, Felicitation programs, Personality Development Camp, Career Guidance Programs, and much more. The support and guidance from MESCO helped ease all the external pressures and allowed me to concentrate entirely on my studies.”

FORTHCOMING EVENT

MEDICAL DEPARTMENT

Good deeds are not a common practice. Its rarity makes it uncommon and it's this uncommon quality that MESCO has adopted. Providing aid to the deserving is our vision that keeps us going. During the quarter, **51** patients were assisted under Medical Aid (MA) Scheme for the monthly medicines, diagnostic tests and minor surgeries. **33** patients were assisted under Life Saving Medical Aid (LSMA) schemes for the life saving surgeries and treatments. **62** patients were assisted under six months Dialysis support scheme. Apart from this **08** patients were assisted under Sustained dialysis scheme.

GRATITUDE STORY

Providing aid to the deserving is our vision that keeps us going. One such deserving and needy whom MESCO is able to extend a helping hand is a 35 years divorcee lady Ms.Savita. Unfortunately her husband left her due to her kidney issues. She is a case of chronic renal failure since 2020. She requires dialysis three times a week. Being a divorcee, staying under the guardianship of sister who earns a monthly income of Rs. 8k by performing domestic work, it is difficult to arrange for the dialysis expenses along with the medicines required on a daily basis. MESCO feels immense peace that we were able to extend a helping hand and sort her through this instability by providing her medical aid through our Sustained dialysis support scheme. She started earning Rs.2000/- by giving home tuitions. Savita is thankful to the MESCO for the support she received in such a difficult time when there was no ray of hope in her life.
